		Interior Design Editor : Radmag. Content curation for a biannual arts and design focused magazine. Set design, and branding.
	2017 - present	Teaching Assistant : Ryerson School of Interior Design. Student teaching-assistant position for a drawing communications class. Mentor-ship responsibilities, project grading and class lectures. Extensive work with 3d modeling and adobe software.
		Workshop Assistant : Ryerson School of Interior Design. Summer intern position at a student-oriented woodworking and digital fabrication workshop. Branding and graphic design responsibilities.
	winter 2018	Professional Intern : Gensler Architecture. Intern position with global corporate architecture firm. Environmental graphic design and branding.
experience	2017	split : furniture design and fabrication. Part of a student and mentor group of Ryerson's School of Interior Design. Responsible for designing and fabricating multi-use furniture and accessories to be used in a retail setting by Ted Rogers School of Management. Working extensively with hardwood and steel, the project involved the fabrication of custom furniture. Additionally, we provided supplementary promotional videos, promotional and instructional books, and a comprehensive set of construction drawings.
	winter 2016 - 2017	pneu : installation work Worked on a team of design students and mentors as part of Ryerson's Design Fabrication Zone initiative. A multi-month intensive project commissioned by the Toronto Offsite Design Festival, we designed and fabricated a large scale inflatable installation. Spanning 620 sqft, the single membrane inflatable was fabricated with polyethylene and mylar sheeting by hand.
	skills	adobe suite : Illustrator, In design, Photoshop. cad : Rhino, Autocad fabrication : intermediate wood working and metal working digital technology : laser cutting, 3d printing, CNC hand drafting and illustration
